What we stand for

As a workers council, we ensure that the interests of the workforce are adequately taken into account by the employer.

We look after the interests of our colleagues. We examine their suggestions and information and, if necessary, pass them on to the employer.

We make suggestions as to how employment in the company can be safeguarded and promoted.

In addition, we ensure that applicable laws, ordinances and collective agreements, as well as accident prevention regulations and any company agreements that benefit our workforce, are observed.

How we are organized

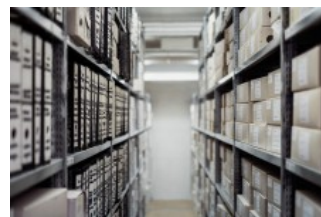

Our Goals

- Improving the compatibility of work and private life for employees in the shift model
- More flexibility through new shift models

Important documents

- Improvement of communication and exchange with colleagues in the MuP
- Installation of a BER employee mailbox
- Continuation of the BER community in Bosch Connect and creation of a BGN site
- Further improvements and possibly new formats for the works meetings in MuP
